

Rob makes a cute duck wrist band

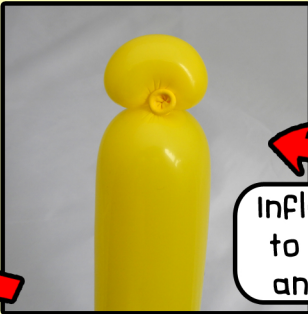

For this Duck

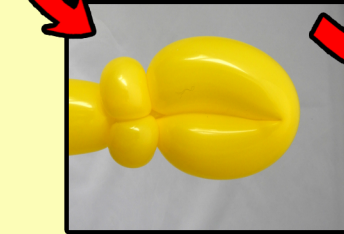

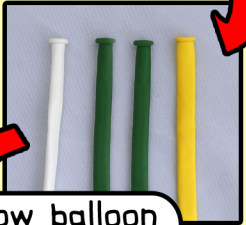

you will need a 260 in yellow, a 260 white and 2 x 260s in green

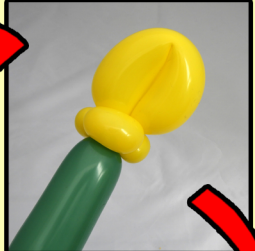

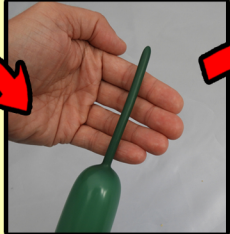

Make 2 more pinch twists followed by a 4 finger loop

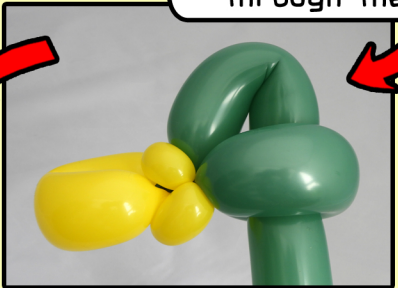

Inflate the yellow balloon to about 10 inches long and make a pinch twist

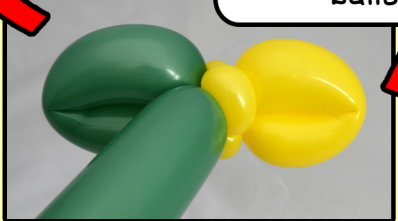

Inflate a green balloon until about 5 fingers are left uninflated, attach to the pinch twists

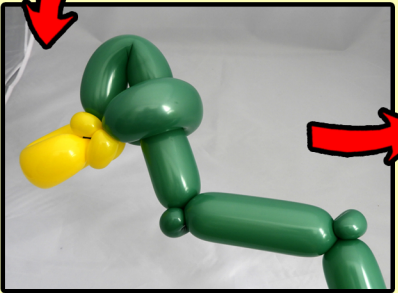

Push the rest of the balloon through the loop like this

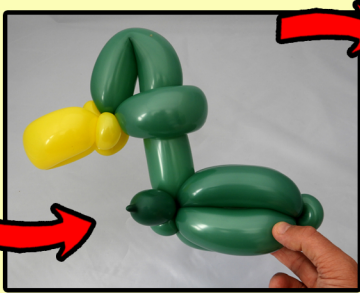

Make a loop a bit bigger than the loop in the yellow balloon

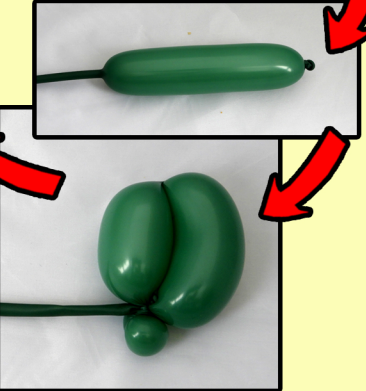

Give the duck a neck and then pinch twist followed by a 6 finger bubble and another pinch twist.

Now use the rest of the balloon to make 3 more 6 finger bubbles between the 2 pinch twists, remove the remaining balloon

Using the second green balloon, inflate and make a pinch twist followed by 2 bubbles

Join this pinch twist to the pinch twist at the back of the duck, the tail sits between the body bubbles, use the white balloon to make 2 small bubbles for the eyes. Use the rest of the green balloon for the wrist strap and add a black dot for the eye.
