

Halloween Column

By Fiona Eagle

Materials

- 14 x 11” Black
- 7 x 11” White
- 7 x 11” Orange
- 9 x 5” scary eyeballs
- 1 x 11” Black Dotty
- 1 x 5” Spider eyes
- 5 x 260Q Black
- 1 x Spiderweb Deco Bubble
- 1 x NOT stand or alternative

Techniques

- Duplet
- Cluster
- Gumball
- Pinch twist

How to make your Column

1. Inflate 7 duplets in Black and white size approx. 8”
2. Inflate 7 duplets in Black and Orange size as above.
3. Load stand with Blacks opposite to create spiral pattern in clusters of 4, using wrapping technique.
4. Inflate the scary eyes inside the spiderweb bubble.
5. Inflate the deco bubble and attach to top of column using a 260Q

How to make your Spider

1. Inflate the black dotty balloon and spider eyes to make a duplet.
2. Inflate 3 x 260Qs fully and 'burp' them to make them a little soft.
3. Find the centres of the 3 x 260 Qs and twist them together to make the legs.
4. Place the duplet in the centre of the legs and secure.
5. Find the centre of each of the legs and make a pinch twist for the knees.
6. Attach to column using a 260Q

This design has a good impact and is relatively quick. Make sure the column isn't too high so the kids can see the scary eyeballs!
