- 1 x 2m length 25mm black PVC Electrical conduit
- Clear Cellophane Roll
- Red Florist Ribbon, 2" wide
- 1 litre of White Polystyrene beads
- Balloon bond or glue.
- Scraps of Modelling balloons
- Estimated Labour time: 40 minutes.

Construction Method:

1. Tie a scrap of modelling balloon around one end of the conduit.
2. Create a cluster of 4 x 6" Gold Reflex LOL balloons inflated to 5.5" and wrap tightly onto the conduit, pushing up tight against the modelling balloon tie.
3. Create a second cluster with 4 x 5" Reflex Crystal Red balloons inflated to 3", wrap onto the conduit and push firmly against the LOL cluster so that the clusters sit flat.
4. Inflate the 4 260 balloons fully, let a little air out and tie. Twist into a cluster of 4, and twist between the two clusters at the top of the pole. Pull the balloons down through the red balloons, then spiral around the conduit as far as they will go. Twist, wrap and tie off securely to stop them unwinding, then deflate any unwanted extra balloon and tie off.
5. Create a cluster of 5" reflex gold inflated to 4" and wrap below the 260 spiral. Wrap a cluster of 5" Reflex Crystal Red inflated to 3" below the Reflex gold.
6. Remove the valve from the Crystal Clearz, add a little air, and tip the polystyrene beads in through the neck.
7. Roll up the Jovial Santa foil and insert it into the Clearz through the neck, keeping the inflation point outside.
8. Inflate the Clearz partially with air, then inflate the Jovial Santa, keeping hold of the inflation point. Top up the Clearz until the Santa sits well inside. Seal the Clearz by twisting the neck and tying tightly with a scrap of 260. Tie into the top of the design.
9. Create 4 chains of 5 Reflex Gold LOL balloons, grading the sizes from 5" to 3" in 1/2" steps. Finish each chain with a 5" Reflex gold inflated to 2.5", then tie each chain to the LOL cluster under the Clearz.
10. Inflate the Cubez with air and wrap like presents using the Florist ribbon. Inflate the Candy swirls and wrap with Cellophane. Once the WindWaver is in place, group these around the base, securing with glue or Balloon Bond.
